

Custom Milling & Consulting, Inc.

**Custom Milling & Consulting, Inc.** is the complete solution for all your wet materials processing needs. At our headquarters, in Fleetwood, PA, we manufacture milling equipment and provide toll processing and contract manufacturing services. In Curitiba, Brazil, our South America location, we provide toll milling services and pilot lab testing facilities.

Headquarters in USA  
Fleetwood, PA

South America Location  
Curitiba, Brazil

The **Equipment Division** designs and manufactures machines to meet your specific needs. Our engineers and technicians take the time to produce durable, efficient, and customized processing equipment.

Our **Toll Processing** can handle product/process development, toll milling, assist with formulation development, labeling, packaging and shipping.

At CMC, we provide a seamless transition for our clients when their manufacturing needs change.

**At CMC, our motto is .... make our customers successful first and our success will follow.**
